It has been 23 years since the Okanagan Periodontal Study Club held its inaugural program for Dental Hygienists. Over the years our executive team has been extremely proud of the success of the study club which has been derived from both the high caliber of quality CE programming and the loyalty and support of our Dental Hygienist members. However, in recent years our membership enrollment has been declining and as such the current annual dues format is no longer sustainable. It is our desire to propel the OPSC forward, but with a new format. The OPSC will convert into a pay as you go model which will continue to offer full day Saturday programs offering 6 CE credits consisting of a light breakfast and lunch with both morning and afternoon sessions. There will be a registration fee per session which will vary depending on the costs per program. We look forward to the ongoing success of the OPSC for many more years! Please stay tuned for an upcoming announcement regarding our first CE program.

With great appreciation for your many years of support, I would like to personally thank you on behalf of our executive,

Dr. Steven Faigan
Certified Specialist in Periodontics
Vice President and Mentor

Wendy Kelly- President
Sandra Kahn- Treasurer
Gayle Faigan- Secretary
